TOTAL AWARD WINNING SOLUTIONS

Specialist labelling solutions company Impresstik is acknowledged as one of Australia's most dynamic and innovative labelling companies.

Over the last year Impresstik have won major prizes in both the NSW Print Excellence Awards and National Print Award events. The most prestigious Business Excellence Award for 'Innovation in Business' recognises the company's unstinting commitment to technical innovation, integrated labelling equipment solutions, print excellence and client satisfaction.

'Impresstik continually strives to ensure optimal performance delivery at all stages of the any labelling project. Our staff take pride in their capacity to offer peak quality, cost effective solutions that exceed customer expectations,' said Group Managing Director, Werner Mokesch.

Impresstik Systems, the company's applicator division, is recognised as a pioneer of labelling equipment solutions. In-house engineers recently designed and introduced the state-of-the-art Webmaster 2100, a fully automated, non-stop, self-adhesive labelling station intended for integration into both high-speed rotary or in-line installations. Its twin-roll feed allows for uninterrupted interchange and waste ejection, minimising downtime to provide peak efficiency production capacity.

Established in 1972 and 100% Australian owned, Impresstik offers innovative and responsive labelling solutions nationally through its integrated divisions – Impresstik Labels, Impresstik Systems and the contract labelling unit - Impresstik Hi Dec. Impresstik sales offices also are located in Melbourne and Adelaide.
